**Discussion Questions:**

**1** *How do you celebrate the unique cultures represented in your congregation? Do you show that off in your worship style or the design of your space?*

---

---

---

**2** *Think about the things your community is struggling with. If you could build something as a gift to your neighbors, what would it be? A barbershop? A prayer garden and labyrinth? An art studio? An after school student center? How would that impact your community compared to a typical church building?*

---

---

---

**3** *What groups in your community tend not to connect with each other? Families and singles? Young and elderly? Different racial or socioeconomic groups? How does your space either perpetuate or challenge those separations?*
